

Perfect Rheology for Offset machines

Waterless offset printing has established itself thanks to the high resolution and dot definition which can be achieved, leading to unexcelled print quality.

The offset ink Ultra Set UVOS was designed for modern machines combining screen and offset printing. Along with the Ultra Disc UVOD screen printing opaque whites they make a perfect couple for the decoration of optical discs.

Applications

- Suited for all common optical disc formats
- Lowest Radial Deviation values guarantee best results, even on Blu-ray discs

Characteristics	UVOS 4x9 Process shades
Curing	fast
Degree of gloss	satfin gloss
Viscosity	high
Machines	Kammann, Metronic, Hanky, Lamin

Your Benefits:

Very good printability

→ Easy to handle, for highest process safety

Consistently high production quality

→ Allows exact reproducibility

Excellent dot definition

→ Amazingly sharp images

Intensely coloured, vivid prints at lowest possible ink deposit

→ Very high ink mileage

Highly reactive adjustment

→ Fast production speeds

Suited for different machines

→ Flexibility
